# WHOLESALE CHRISTMAS 2020

Polkadoodles Ltd formed in May 2009. Having previously owned a local craft store, Nikky began designing her own range of papers and stamps following customer demand in store during workshops and classes. Unable to find the products she wanted to use in workshops, she started to design her own in a small capacity but customers quickly wanted to buy them (and more) so the decision was made to become a manufacturer and move the business online due to the recession at that time. Within the first month of making the transition Nikky was approached by a TV Craft channel and within 2 months of starting the new business she was on UK TV presenting & demonstrating the new brand to UK customers.

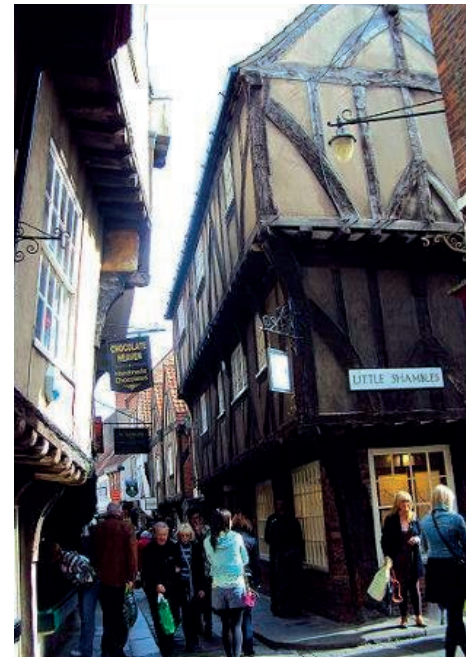

Polkadoodles still continues to follow it's own path in the crafty world and has a large, loyal fan base worldwide. Crafters love the quirky, edgy design style and embrace the broad style spectrum Polkadoodles has in it's range - from mixed media stamps and stencils to the cute, adorable character ranges there is something for every style of crafting with a quality that stands the test of time, every time.

In 2019 turnover doubled due to securing a new distribution network and the brand is continuing to expand rapidly to all corners of the globe, with over 70% of it's business now located worldwide.

We design & manufacture products we love in the heart of York, one of the most beautiful & historical cities in the world.

Home of Roman Emperors, Viking Warriors, Kings & Queens, Harry Potter & Winnie
